EXTREME SUFFERING

Additional Details of the Distress in Russia.

STARVING BY THE THOUSANDS.

Extensive Cold Weather—Typhus Fever and Other Diseases Add to the Already Great Distress—Various Other News from Across the Ocean.

LONDON, Feb. 13.—A dispatch to The Daily Chronicle from Penza, capital of the Russian government of that name, gives additional details of the horrible suffering among the peasants in that famine-stricken district. Birds, it appears, drop dead from the cold, and men are found frozen to death along the roads. Typhus and other fevers and diseases are slowly mowing down the inhabitants. There are 200 dead around Penza, and 18,000 people are being fed by charity.

A quantity of grain has arrived at the city of Penza, but, owing to the fact that nearly all the horses of the neighborhood have been killed for food, there are no means of distributing it into the country districts.

The Chronicle's correspondent says that matters are still worse in other districts, and that in Samara, Saratov, Charkov, Kasama and Nijini-Novgorod the inhabitants are said to be dying by thousands.

Blame the McKinley Bill.

VIENNA, Feb. 13.—Skilled mechanics and others are flocking to this capital from the Austrian provinces and from Hungary, hoping to find some help in their destitution. The refugees, most of whom are in absolute want, and many of whom have been without food for many days, attribute their miseries to the American McKinley law, which has resulted in throwing them out of work by crushing certain branches of Austrian industries which supplied the American market. McKinley is spoken of by these poor people as an ogre who has devoured their happiness. The conditions have begun to alarm the Viennese authorities, as the city has a great deal of local destitution without being a Mecca for a starving multitude from all parts of the empire.

Welcome to General Booth.

LONDON, Feb. 13.—Thousands of members of the Salvation Army went by train to Southampton yesterday to meet General Booth on his arrival home from India by way of Italy and France. There were also large crowds gathered awaiting his arrival at the depot in London. At Southampton steamers were chartered to go down the Solent and take the general off the channel steamer.

May Have Been Murder.

PARIS, Feb. 13.—There is a rumor here that the Russian General Von Haford, who is reported to have committed suicide at the Hotel Du Louvre, was really shot by nihilists. When the Russian Agent General Silverstov was assassinated here last year by Padlewski, the circumstances were remarkably similar, and it was at first reported that Silverstov had shot himself.

Fearing an Anarchist Outbreak.

MADRID, Feb. 13.—The agitation at Xeres continues and the people are in mortal fear of a further outbreak of the anarchists. All public places are closed and few people are seen on the streets. Marauding gangs are seen in the neighboring town, but none appear within the town limits. The police are searching for anarchists who are supposed to be in the town.

Thousands of People Starving.

VIENNA, Feb. 13.—The distress among the laboring classes of this city is very great, and thousands of families are in a starving condition. One hundred and thirty millions of florins have been voted to carry on public works for the relief of the town.

The Vessel Saved.

LONDON, Feb. 13.—A dispatch from Malta says that her majesty's steamship Victoria, flagship of the British Mediterranean fleet, which was recently ashore off the coast of Greece, has arrived safely at Malta, and that she is to be docked immediately.

Gone to Pieces.

LONDON, Feb. 13.—The British steamer Valencia, previously reported on the rocks near Cape Legata, Spain, has gone to pieces and sunk. The Valencia was engaged in the fruit trade in the Mediterranean.

Miners Will Be Idle.

LONDON, Feb. 13.—The conference of miners at Manchester has decided that British colliers cease work on March 12. They will probably be idle a fortnight.

Another in Germany.

BERLIN, Feb. 13.—Cardinal Paul Melchers is dying.

Important Damas. Suit.

INDIANAPOLIS, Feb. 13.—Mrs. Delia Abbott, whose suit for \$10,000 damages against the Lake Erie and Western Railroad company for the killing of her husband, Car Inspector William Abbott, has been occupying several days in Judge Walker's room, was given a verdict for \$8,000 yesterday. On the first trial, in Judge Harper's room, the jury gave but \$3,500.

Syrian Didn't Want It.

LEAVENWORTH, Kan., Feb. 13.—When John L. Sullivan was shown the dispatch to the effect that he had signed articles to fight Maher for a purse of \$5,000, he said there was not a word of truth in it. He attributed the article to Billy Madden, who is Maher's backer.

SEEMS TO BE SERIOUS.

Britons Clamoring for Quarantine Against Canadian Cattle.

MONTRÉAL, Feb. 13.—The Star publishes the following special dispatch from London: The agitation against live cattle imports is gaining dangerous strength. Following The Times, The Morning Post, which hitherto has been most friendly to Canada, says:

"In the presence of grave danger of a spread of the disease to British herds, the most obvious dictates of common sense say close the ports of England. We are spending millions of pounds to suppress disease among home animals, yet with inexplicable fatuity, we leave the doors open at ports. A closure of ports to live animals would make no difference to imports of dead meat nor raise the price.

"Bell's Weekly Messenger, another general friend of Canada, indicates the seriousness of the present outbreak and urges the public to support Mr. Chapman, if necessary, to stop all imports of live cattle. The situation is one of grave peril to Canadian trade, and the Canadian government may perhaps strengthen the position by promptly announcing a rigid quarantine against United States cattle entering British Columbia as well as the rest of Canada.

UNITED MINE WORKERS.

Doing of the Meeting Now in Session at Columbus, Ohio.

COLUMBUS, Feb. 13.—The United Mine Workers yesterday considered a partial report from the resolutions committee.

A resolution asking for better protection for the miner from mine accidents by national legislation was adopted. The president of the national organization, accompanied by a practical miner, is to go to Washington and lay the matter before the proper congressional committee.

Resolutions favoring the election of United States senators by direct vote of the people and declaring against Chinese immigration and pauper labor importation in every form were adopted. The constitution committee was not ready to make final report, but recommended an amendment fixing the time for the annual meeting for the second Tuesday in April, instead of February, as now, and another, increasing the national executive board to nine members. Both were adopted.

A GAS EXPLOSION

Results in a \$140,000 Fire at Monmouth, Ills.

MONMOUTH, Feb. 13.—At 11 o'clock Thursday night this city was visited by the second largest fire since 1871, when the whole business part was destroyed. The fire originated in the opera house and was caused by an explosion of gas a few moments after the house had been vacated by nearly 800 people who had been attending a lecture. The flames quickly spread, and in a short space of time were communicated to eight store rooms underneath—three groceries, saloon, dry goods, furniture and hardware stores—and within an hour's time the entire block of brick buildings was completely destroyed. The losses are about \$140,000. It is impossible as yet to ascertain the amount of insurance.

The wind was from the principal portion of the city, which therefore, escaped.

A RAISED BILL.

Tom Johnson Gets Into Trouble at Dayton, O.

DAYTON, Feb. 13.—Thomas Johnson, who claims to hail from Richmond, Ind., was arrested late last night for having counterfeit money. Unfortunately his partner escaped. Johnson went to the Park saloon and calling for a glass of beer, threw down a \$20 bill to pay for it. The barkeeper could not change the bill and went out after the change.

Then he discovered that the bill was a \$5 bill. The figure 20, cut from a revenue stamp, was pasted over the figure 5, but no other attempt had been made to change the face of the bill. The work was very poor, but in the dark it passed light inspection. Johnson was arrested, and when searched at the station house two bills of a similar description were found on him.

Train Telescopd.

LANCASTER, O., Feb. 13.—Telephonic information has been received from Pleasantville, eight miles from this city, of a wreck on the Toledo and Ohio Central railroad at that point. An engine drawing a train of cars loaded with merchandise jumped the track near the station, instantly killing the engineer and fireman, whose names can not be learned, and fatally injuring a brakeman. The train was telescoped, and the cars inextricably heaped together, forming one big mass of wreckage.

Stone Exhibit at the Fair.

INDIANAPOLIS, Feb. 13.—B. F. Havens, commissioner of the Indiana world's fair commission, has returned from a visit to the stone regions of the state. He believes the exhibit of Indiana stone will be one of the great features of the fair. The stone men, he says, have agreed to supply free the stone to be used in the Indiana building. He believes all the material for the building will be contributed, unless it is the glass.

Miners Will Be Idle.

LONDON, Feb. 13.—The conference of miners at Manchester has decided that British colliers cease work on March 12. They will probably be idle a fortnight.

Another in Germany.

BERLIN, Feb. 13.—Cardinal Paul Melchers is dying.

Important Damas. Suit.

INDIANAPOLIS, Feb. 13.—Mrs. Delia Abbott, whose suit for \$10,000 damages against the Lake Erie and Western Railroad company for the killing of her husband, Car Inspector William Abbott, has been occupying several days in Judge Walker's room, was given a verdict for \$8,000 yesterday. On the first trial, in Judge Harper's room, the jury gave but \$3,500.

LEAVENWORTH, Kan., Feb. 13.—When John L. Sullivan was shown the dispatch to the effect that he had signed articles to fight Maher for a purse of \$5,000, he said there was not a word of truth in it. He attributed the article to Billy Madden, who is Maher's backer.

Dropped Dead.

GREEN SPRINGS, O., Feb. 13.—Mrs. Fannie Swazy yesterday, while walking on Main street, dropped dead.

REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report.

TRANSACTIONS OF BUSINESS.

Wall Street Excited Over the Great Combination of Coal Carriers, but the Effects of the Scheme Have Not Been Felt—The Money Market Abundantly Supplied—Business Failures of the Week.

NEW YORK, Feb. 13.—R. G. Dun & Company's weekly review of trade says: The great combination of coal carriers, and the wild excitement and unprecedented transactions in the stock market have monopolized attention in Wall street. Outside of speculative circles there is some doubt whether the effects would be beneficial. Many apprehend that the price of coal may be advanced to manufacturing establishments and other consumers. On the other hand the consolidated companies will have no more power to control the price of coal than they have had through their combination, and the market continues unusually dull, the nominal price being not often obtained.

For the first time in many months the exports of products from New York fell below those of the same week last year, but the shipments from other points continue very large. The production of pig iron is about stationary. The stocks of charcoal iron are substantially unchanged, but stocks of coke iron are sensibly larger so that on the whole the consumption does not appear quite up to the enormous supply. No change appears in the market for pig iron and rails are in small demand at the fixed price. Bar iron does not improve and the demand for plates is smaller than was expected. Larver sales of copper are reported at 10. 5 cents and a fair distribution of tin, while lead is a trifle lower.

Reports from other cities indicate a general improvement in trade. At Boston trade is on the whole satisfactory, in dry goods equal to last year's, the cotton mills are busy and a steady increase appears in orders for woolens and shawls. Sales of wool for the year are thus far 3,000,000 pounds less than last year's to the same date. Trade in dry goods is improving at Hartford, and at Bridgeport sales are larger than in previous years, though the hardware trade is slack. At Philadelphia the dry goods trade is quite encouraging, and business in groceries generally satisfactory, but very little is doing in wool, and other lines are quiet and without change. Prospects at Baltimore are much brighter, with decided improvement in leather, shoes and harness. Jobbing trade is active in Cincinnati, especially in provisions, and at Cleveland business compares favorably with that of last year, though reaction and a light demand appear in iron ore.

At Chicago the volume of mercantile sales is greater than a year ago, and diminished receipts appear in cured meats only, a fair increase in lard, cheese and butter, third in flour, corn, oats, barley and hides, 50 per cent in wool, while receipts of rye are double last year's, and wheat and dressed beef four times last year's. Trade at Milwaukee is good. At St. Paul, prospects are brighter, and at Minneapolis business has increased, as also at Kansas City, while trade is fair for the season at Omaha and Denver. At St. Louis it is also stronger, and there is much confidence as to the future, although the depression in the cotton regions is still felt. Better accounts also come from the south. At Louisville trade has improved; at Nashville it is very fair; at Memphis, light and improving, and at Montgomery, improving.

At New Orleans, business in all lines is only fair, but there is slight improvement in cotton and sugar is firm and active with light receipts. Nearly all southern points have an easier money market and more hopeful prospects. Money is only too abundant and has been quoted this week at 2, 1 1/2 and 1 per cent.

The business failures during the past week number for the United States 235, and for Canada 41, a total of 276, as compared with totals of 319 last week and 297 the week previous to the last. For the corresponding week of last year the figures were 297, representing 282 failures in the United States and 37 for the Dominion of Canada.

Rear End Collision.

ROCHESTER, N. Y., Feb. 13.—The westbound mail train on the New York Central ran into an Auburn local at the junction of the branch line at Brighton yesterday. The locomotive and two cars of the mail train were ditched. The only person injured was Mrs. W. H. Cady, of New York, whose hand was cut by window glass. The other fifty passengers were merely shaken up a little. Both trains were going west and the mail train ran into the rear car of the Auburn train. The railroad people say the snowstorm hid the semaphore from the view of the engineer.

Didn't Know It Was Loaded.

BRADFORD, Pa., Feb. 13.—Fourteen-year-old Willie Putnam put the muzzle of an old revolver, which he supposed to be harmless, to his temple at 4 o'clock yesterday, pulled the trigger and received a bullet in his brain, dying an hour later.

Furniture Fire.

KINGSTON, N. Y., Feb. 13.—Stock & Rice's furniture and undertaking store was burned Friday, and several adjacent buildings damaged. The total loss is about \$70,000; insurance about \$40,000.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

SATURDAY, FEBRUARY 13, 1892.

HARRISON, Nicholas, Bracken, Robertson and Bath counties may form one of the Judicial circuits under the new Constitution. It is solidly Democratic; the majority being nearly three thousand.

A POLL of fifty-one prominent professional and business men of Wheeling, W. Va., showed forty-nine for Cleveland and two for Hill. Cleveland seems to be a big favorite in West Virginia as in most other States.

Brown County's "tax inquisitor" has added \$160,000 to the assessment of that county, and he gives notice that he has a good many more fellows on the list. Tax-shirkers don't fare as well in Ohio as they do in Kentucky.

THE New York World refers to the approaching Democratic meeting in that State as "the freeze-out convention." The World, by the way, was once a staunch friend of Senator Hill, but refuses to sanction such tactics as he has adopted to secure the delegation from the Empire State to the National convention.

SENATOR VEST says: "Free coinage made an issue by the action of the Democrats in Congress, or by the National Democratic Convention, means division, and division means defeat," in the next National election, but some of the Democratic Congressmen seem determined to drive the old ship on the rocks.

THE BULLETIN must be a welcome visitor at the office of some of our exchanges. The Manchester Signal this week appropriated eight news items from this paper with but one of them properly credited, while the Cynthiana Times contained twenty-one news items and editorials—with only one credited. These papers seem to know a good thing when they see it, and are not slow at all in "appropriating" it.

THE Manchester Signal this week contained eight items from the BULLETIN with only one credited. The Cynthiana Times has "gone one better" and copied only a few—twenty-one in all, but not one of them probably credited. Of course, the BULLETIN appreciates the compliment paid it, but it could do so more fully if it had only received some credit for the items taken from its columns. If these papers are depending on the editor of the BULLETIN to edit them, they ought to say so.

At a meeting of prominent New Jersey Democrats it was resolved to make tariff reform the issue in the coming Presidential election, and that unlimited free coinage of legal tender silver would bring distress and ruin to the country. They also pledged themselves to use all proper exertions to secure the nomination of "the candidate who by courage, candor and definite statement of principles, and in the opinion of the people has become the rightful and safe leader in such a movement, their choice being under all circumstances Grover Cleveland." You know right where the New Jersey Democrats stand in the present campaign.

Electricity to Replace Steam.

[Chauncey Depew in New York Herald.]

"But what will the railroads and steamships of 100 years from now be—make it shorter and say twenty-five years from now?" I asked.

"I will make it shorter than twenty years," said Mr. Depew. "In much less time than that steam as a motive power will have given way to another far greater one. That will be electricity. It is certain to be, and it will be within a very few years, judging by what has been done by electricity in the last sixteen years."

For the Children.

Our readers will notice the advertisements in these columns of Chamberlain & Co., Des Moines, Iowa. From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children and we are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost and are recommending it every day.—Centerville (S. D.) Chronicle and Index.

A Boy's Essay on Breath.

[Minneapolis Journal.]

A little boy in the north side public school recently handed in to the teacher the following composition on "Our Breath": "Our breath is made of air. If it were not for our breath, we should die. The breath keeps going through our liver, our lungs and our lungs. Boys shut up in a room all day should not breathe; they should wait until they get out door. Air in a room has carbon dioxide in it, and carbon dioxide is poisoner than mad dogs. Once some men was shut up in a black hole and afore morning nearly every one of them was dead. Girls wear corsets which squeeze their diagrams to much. Girls can not run and holler like boys cause their diagrams are squeezed. If I was a girl I would just run and holler so my diagram would grow. That's all on breath."

For the Farmer.

Carlisle dealers are engaging lambs at \$5 to \$10 for July delivery.

Richard Freeman, who lives on F. B. Henry's farm, raised \$865 worth of tobacco last season on four and one-half acres. Who can beat this?—Carlisle Mercury.

Some excellent crops of tobacco sold in this county last week. Peter M. Jett and Hiram Hester each received 10 cents, Joseph Miller 10 and 3. Leach, of Sardis, was the buyer.—Mt. Olivet Advance.

At the Brasfield sale, in Lexington, 347 trotting horses were sold for \$218,030. Horses that will bring \$500 and over in the aim of Brasfield's sale for next February. They will charge \$30 for selling each animal.

The annual estimates of farm animals, consolidated from local returns of January to the Department of Agriculture, indicate an increase of 3 to 4 per cent. of sheep, swine and horses, about 2 in cattle and scarcely 1 per cent. in mules. Estimated number of horses, 15,478,000; mules, 2,314,000; cows, 16,416,000; other cattle, 37,651,000; sheep, 44,930,000; swine, 52,398,000.

"Chamberlain's Cough Remedy is as staple as coffee in this vicinity. It has done an immense amount of good since its introduction here."—A. M. Nordell, Maple Ridge, Minn. For sale by Power & Reynolds.

At Mt. Sterling yesterday evening, Dr. Richart shot and killed John Samuels. Particulars not learned.

La Grippe!

The tendency of this disease toward pneumonia is what makes it dangerous. La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cures of severe colds. This Remedy effectively counters the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 25 cent, 50 cent and \$1 bottles for sale by Power & Reynolds.

THE MARKETS.

Cincinnati Live Stock Market.

(Friday.)

Receipts of hogs, 1,410; cattle, 244; sheep, 17. Shipments of hogs, 1,154; cattle, 35; sheep, none. HOGS—Common, \$2.75 to \$4.55; fair to good light, \$4.50 to \$5.50; packing, \$4.65 to \$4.90; selected butchers', \$4.90 to \$5.50. Market slow and easier.

CATTLE—Common, \$2.00 to \$2.65; fair to medium, \$2.75 to \$3.50; good to choice, \$3.85 to \$4.15; fair to good shipping, \$3.75 to \$4.20. Market slow and easy.

SHRIMP—Common to fair, \$3.50 to \$4.25; good to choice, \$4.25 to \$5.00; extra, \$5.25. Market stronger.

LAMBS—Common to fair, \$4.50 to \$6.00; good to choice, \$5.25 to \$6.00; heavy shippers, \$6.25. Market stronger.

Cincinnati Tobacco Market.

(Thursday.)

The breaks, while of good size, were not up to the usual Thursday's offerings, owing to the fact that the market is not a regular one, preferring to wait until to-morrow (Friday). There was a firm, active market, without material change from yesterday. Old common trash, lugs and nondescripts show the same activity noted heretofore, and prices of previous days were fully maintained. Medium and red tobacco are in steady request. Good and fine leaf holds in active demand, bringing full prices. For all grades of new leaf, the market is active, market price being the main satisfaction.

Of the 207 hds. (new) 17 sold from \$1.90 to \$3.95, 91 from \$1 to \$3.95, 62 from \$2 to \$7.95, 40 from \$3 to \$9.95, 66 from \$10 to \$14.75 and 22 from \$15 to \$19. Of the 397 hds. (old) 31 sold from \$1 to \$3.80, 79 from \$1 to \$5.95, 126 from \$6 to \$7.90, 35 from \$8 to \$9.95, 63 from \$10 to \$14.50, 48 from \$10 to \$19, 16 from \$20 to \$24 and 1 at \$27.

Pork Packing and Provisions.

(Cincinnati Price Current, February 11.)

Packing operations have been considerably reduced the last week, returns showing a total of 305,000 hogs for the West, against 450,000 for the preceding week, and 410,000 for corresponding period last year—making a total of 7,185,000 since November 1, against 7,195,000 a year ago. The Eastern movement of hogs has been well maintained, so that the reduction in the marketings has directly affected the supply for eastern markets. Under the present conditions values of hogs have been stimulated irrespective of current prices for leading articles of product, which now represent a basis of about \$1.40 for hogs at Chicago.

In view of the outlook with reference to marketable supply of hogs for some weeks or months to come it is reasonable to calculate that the price will not materially change, but will be held with values of hogs rather than adjustment otherwise. The tendency of the provision market during most of the week has been moderately toward higher values, and the close at Chicago shows a gain of 25¢ on 20c, 10c per 100 lbs. on lard and 17½¢ on short rib sides, for May delivery, compared with a week ago.

There is no special activity in the market, speculation in meat products being held in suspense under an apprehension of Congressional action adverse to operations in futures, it being generally conceded that the passage of the measure now being urged would so complicate affairs as to lead to depression in values, were the proposed law to be enforced. The exportation movement of product was large for the week in both lard and meats.

MR. DAN MORGAN is spending a few days in town with his mother. He is traveling for the Proctor & Gamble Company, but has changed his headquarters from Omaha to Cincinnati.

MAYSVILLE BUGGY COMPANY.

Thompson, & McAtee and Porter & Ennis To Engage in the Manufacture of Vehicles

Above is the style of a new company organized on yesterday. It is composed of the following well-known firms: Thompson & McAtee, dealers in buggies and farm implements, and Porter & Ennis, lately employed at Myall & Shackleford's carriage works.

The new firm have secured the building on Sutton street, adjoining the Steam Laundry and will begin at once the manufacture and repairing of buggies, carriages and road carts. They will make only first-class work. Messrs. Porter and Ennis have had twenty-five years experience in the manufacture of vehicles and their work is well-known throughout all this section.

The office will be at Thompson & McAtee's business house on Second street. All orders left either at the office or at the factory will be promptly attended to.

Messrs. Thompson & McAtee will continue to carry a full line of the very best assortment of Eastern work in connection with the home made work. We bespeak for the new company a liberal share of the trade.

Messrs. Thompson and Porter went to Cincinnati this morning to lay in a stock of material.

Who is the Bride-elect?

John Smith, merchant tailor, of Carrollton, was in town the other day with a fine line of samples. He sold, it is said, two suits of clothes each to two prominent young men. Two suits of clothes at a time to a young man in this country means—they say—a wedding. Two of these suits, it is said, will be first displayed in Maysville, while the other two will shine first in Louisville.—Owenton News.

The Banner Rabbit County.

Says the Mt. Olivet Advance: "One of the very prominent industries of this county receives but little attention because no one thinks it worthy of much notice and yet it brings hundreds of dollars into the county every year. We allude to the rabbit crop. We are told that one firm alone in Kentontown has the past winter, handled more than \$1,200 worth of them and the other firm in that place about the same quantity. This of course is only one place in the county and it is safe to say that \$5,000 worth of them are shipped from this county every year. We believe we are the banner rabbit county."

The Two Johns.

J. C. Stewart's popular comedy "The Two Johns," is still to the front and will be presented at the opera house next Thursday night. The Baltimore Sun says: "The Two Johns," as large as life and somewhat larger, opened a week's engagement to a large house. The 'staying powers' of this piece are wonderful; for nine years it has been on the road and with each consecutive season 'bobs up serenely,' loaded to the muzzle with new jokes, songs, dances and specialties calculated to make the most confirmed hypochondriac laugh. It is given the best presentation it has received in a good while this season."

Tickets now on sale at Nelson's.

A Millionaire and His Money.

One of the most prominent looking men noticed around the horse sales and at the Phoenix Hotel is A. H. Moore, the millionaire of Philadelphia. He is not over thirty-five years of age but has lived over a hundred. He wears a beaver hat and overcoat and looks to be fifty years of age. He spent \$100,000 for dogs and took more dog premiums than any other man on earth. His attention has been turned to horses and he now owns over twenty brood mares with records of less than 2:20. He says he is not going to buy fine horses and keep them locked up in a barn like Bonner. He proposes to let the people see his horses go. Mr. Moore lives in a palace and enjoys life. His father is worth about \$20,000,000.—Lexington Transcript.

AN OLD VALENTINE.

My wife looked o'er a valent'ne,
And did not know that I was near;
She read it over line by line—
I could not help but hear.

'Twas full of young love's fondest terms,
Without regard to rhyme or sense;
poorly dressed and planted germs
Of mild indifference.

I listened to the words I heard,
While shame surprised me with its dart;

'Twas long since I had breathed a word
Of love to that true heart.

Then noiselessly I stepped behind
Her chair, and heard a sob of pain.

My heart cried out: "I have been blind!"

And love awoke again.

I drew her gently to my breast,

I soothed her, kissed her, called her mine;

And all the love once more confessed,

Told in that valentine.

TO-morrow will be the anniversary of the big flood of 1884. On February 14th, eight years ago, the Ohio reached the highest stage ever recorded at this point. A canoe was landed in front of Owens, Mitchel & Co.'s store on Second street that morning.

THE Paris Kentuckian says: "As the Maysville train passed near Hutchison last Tuesday evening, coming to Paris, some one fired a load of buckshot through the glass door in the rear car, and the charge came near striking James E. Clay, of Marchmont Stock Farm."

THE Manchester Signal says: "Some weeks since a traveling swindler visited this place and 'roped in' a number of people to the tune of \$1 a piece, on the Encyclopedia Britannica. The book was sold away below cost and the \$1 was necessary to pay express charges. The books have failed to turn up."

W. J. WHITE, manufacturer of the "Yucatan" chewing gum, started in business a few years ago with 70 cents. He's now worth millions of dollars. He sold over \$600,000 worth of gum in 1890, and last year disposed of 7,000,000 more cakes than the year before. His motto is: "Whatever you make, make it so good that nobody else can make it better."

CONGRESS.**He Inc.**

WASHINGTON, Feb. 13.—A resolution was adopted setting apart Saturday, April 2, for tributes of respect to the late Hon. M. W. Ford, of Michigan, also one to print 6,000 additional copies of the president's message on the Cuban question.

Favorable report was made by the committee on public lands on a bill to adjust swamp land grants, and to fix the limitation for filing claims.

Mr. Outhwaite, of Ohio, asked unanimous consent to limit debate on the military academy appropriation bill to twenty minutes and to dispense with yeas and nays on the motion pending Thursday to limit debate to one minute.

Mr. Walker, of Massachusetts, objected and the roll was called on the motion pending adjournment Thursday, for one minute debate. The motion was carried, 202 to 16.

The drainage appropriation of \$15,000 on motion of Mr. Holman, was stricken out, 108 to 57. The committee then rose and reported the bill to the house.

Mr. Bowers, of California, demanded the yeas and nays on the amendment providing electric light plant costing \$9,540 for the cadet barracks. This amendment was retained, 156 to 73.

Mr. Walker, of Massachusetts, demanded the yeas and nays on several amendments, and failing in securing a vote in that manner, moved an adjournment of the house. He said he desired to put the Democrats on record on this bill. His several dilatory motions caused considerable laughter on the floor.

The bill was then passed.

At 2 o'clock the house proceeded to consider bills on the private calendar.

BARON HIRSCH IN DISGUISE.**Why Two of His Agents Have Been Discharged.**

SAN FRANCISCO, Feb. 13.—Jacob Danziger, a large wheat dealer of Berlin, who is now here, is authority for a queer story about Baron Hirsch. He says that Hirsch recently discovered that his agents in New York were not properly managing his fund of \$10,000 per month devoted to Jewish immigrants arriving in New York. Danziger says:

"The baron learned that the commissioner he had appointed gave no help to immigrants, but pocketed most of the money set aside for this benevolent purpose. The baron decided to look up the truth of the charges by proceeding to New York himself. The better to get at bottom facts, he disguised himself as a poor Hebrew and took steerage passage across the Atlantic. I was on the same steamer with him, but, realizing that he must have had some important object to achieve, I did not recognize him by word or look. When New York was reached, he went to the dingy pens of Castle Garden along with the remainder of the Jewish exiles.

"Pretty soon the commissioners came down and the baron begged of one of them a little assistance. Assistance was brusquely refused and he was thrown aside by the very men who were handling his money. After observing their haughty, unscrupulous behavior for a few days, the baron, quietly and secretly had them removed from their positions and others appointed. He told me he intended to have them prosecuted before returning to Europe. He made the necessary preliminary arrangements to this end with the lawyers."

ALMOST BURIED ALIVE.

Horrifying Experience of Mrs. Wilson Near Warsaw, Ills.

WARSAW, Feb. 13.—Mrs. Wilson, living twelve miles from this city, became suddenly ill last Saturday and to all appearances died. She was dressed for burial and arrangements for her funeral made. No physician was called. On Monday a neighbor was sent to Warsaw for a coffin, but got drunk and did not reach home until Tuesday morning. When the watchers began to place the supposed corpse in the coffin the woman threw up her arms and caught one of the attendants by both wrists. With difficulty her fingers were released. By the aid of a mirror respiration was detected, restoratives applied and in a few moments Mrs. Wilson was able to talk.

She is too weak to make much explanation of her experience, but the agonies she suffered while the preparations were being made for her burial were simply awful. It was with superhuman efforts that she was enabled to throw up her arms and clutch the wrists of the attendant. Mrs. Wilson will recover.

Once More Behind the Bars.

OXFORD, O., Feb. 13.—James Boyce, an inmate of the Ohio retreat, escaped from that institution yesterday and went to the depot. He secured a large piece of gas pipe and kept his pursuers at bay, saying that he would kill the first man that laid hands on him. When the 9:15 train arrived he immediately boarded the chair car, and, holding the door, made a desperate resistance from being taken. Marshal Flanigan and several deputies, after forcing the door open, rushed in and overpowered the man. He was taken from the train, tied and handcuffed, and placed behind the bars once more.

Conflicting Orders.

MASSEY, O., Feb. 13.—A head-on collision occurred on the Fort Wayne road between the tenth section of train No. 76, eastbound, and the first section of No. 75, a westbound through freight, at North Lawrence. The cause was conflicting orders to the conductors. Both engines and thirty-five cars were wrecked, the debris being scattered over both tracks and the tracks being blocked for six hours. No one was hurt.

Mrs. Duhme May Be in That Land.

LAFAYETTE, Ind., Feb. 13.—The circuit court of White county has decided that the codicil in the will of the late Moses Fowler, which restricts the sale of about 10,000 acres of land for a term of twenty-five years, is null and void and Mrs. Charles Duhme, his daughter, is now at liberty to sell the land.

Not Guilty.

TIPTON, Ind., Feb. 13.—The trial of David Bradburn, indicted for the murder of Daniel Bradburn, terminated last evening in the jury returning a verdict of not guilty.

WANTED TO START A CIRCUS.

Four Little Boys Break Into a House and Steal Thirty Dollars.

ST. LOUIS, Feb. 13.—Four remarkable criminals appeared in the court of criminal correction yesterday. When the cases were called, four ragged urchins responded. They were charged with burglary and larceny. The ringleader of the gang, a dirty-faced, red-haired boy, was the spokesman of the young criminals.

"Did you break into a man's house and steal \$30?" asked the court.

"Yes, sir," frankly replied the lad.

"Now tell me why," said his honor. The boy started to weep, and then stammered out that they wanted to start a circus, and they needed the money to buy some white rats, some elephants, some rabbits and a few more things which they thought necessary for the circus business. The court ordered the charge of burglary withdrawn and one of larceny substituted so that the quartet may be sent to the house of refuge instead of state prison.

DIED OF FRIGHT.

A Young Lady's Life Cut Short by the Acts of Two Coal Miners.

PITTSBURG, Feb. 13.—Caroline J. Gardner, fifteen years of age, who resided with her mother at Federal station on the Pittsburg, Cincinnati, Chicago and St. Louis railroad died yesterday morning from fright caused by Thomas and James Skidmore, father and son, who it is believed, on last Saturday evening attempted to kidnap the young lady for immoral purposes.

Caroline went to the coal shed near the house for coal. The men attempted to seize her. She escaped, however, to the house, falling upon the floor in a dead faint. The men lingered about the caping on the windows and door of the lonely cottage. The coroner's jury held the Skidmores guilty of manslaughter. The men were arrested and brought to Pittsburgh. Both are coal miners.

Financier's Funeral.

NEW YORK, Feb. 13.—The funeral services over the body of the late John J. Knox, ex-comptroller of the currency, took place yesterday at St. Bartholomew's church, Forty-fourth street and Madison avenue. The church was crowded with prominent financiers and friends of the deceased. The burial service of the Episcopal church was read by the Rev. Dr. Greer, rector of the church, and there was a brief choral service. The body was taken to Washington for burial in Oak Hill cemetery.
